Smart personal assistant to help a target audience with their daily decision-making.

Smart personal assistant

Target Audience

There is an increasing number of elderly who are living alone. This figure is projected to rise to 83,000 by 2030.

Nearly 21% of those above 80 years old feel sad and lonely, but 9 in 10 of them are not living alone.

60% of the factors affecting an individual's health and quality of life are correlated to their
